SUMMARY

Computer Science and Engineering graduate with hands-on experience in frontend development, cybersecurity, AI And ML. Skilled in Python, Linux, SQL and Modern Web Technologies. Strong analytical and problem-solving abilities, Adept at working in agile environments and building functional, real-world applications.

EDUCATION

Bachelor of Technology in Computer Science and Engineering , Saintgits College of Engineering	'22 — '26
Higher Secondary Education in Science Stream , Durga Higher Secondary School	'20 — '22
Secondary Education , Kendriya Vidyalaya No. 1 CPCRI	'19 — '20

EXPERIENCE

AI and ML Intern KELTRON	Aug '23 — Aug '23 Kochi, Kerala, India
------------------------------------	---

- Gained hands-on experience in AI and ML
- Developed Python scripts for preprocessing
- Worked with visualization and security tools

Frontend Development Intern NeST Digital	Jun '25 — Jul '25 Kochi, Kerala, India
--	---

- Designed and implemented responsive UI using Angular and TypeScript
- Debugged frontend issues and resolved API integration problems
- Worked in Agile teams and documented technical findings.

PROJECTS

PotAlert: Spot.Alert.React

- Captures pothole location, confidence score, and timestamp . Displays data on interactive dashboard using Google Maps API
- Provided real-time driver alerts and road condition monitoring.
- Improved road safety through intelligent pothole identification and reporting.
- Patent published for the project titled “POT ALERT: SPOT, ALERT, AND REACT”.

HireSense AI – Intelligent Resume Screening & Recruitment Platform

- Developed a full-stack AI-powered Applicant Tracking System using React, FastAPI, PostgreSQL, and AI.
- Implemented AI resume parsing, semantic job matching, ATS score generation, and AI-powered interview question generation.
- Built secure authentication, recruiter dashboard, candidate management, recruitment pipeline, and analytics modules
- Delivered 12 modules including Dashboard,Jobs,Candidates,Applications,Interview Scheduler,Notifications and Analytics

Price Tracker Tool

- Built an automated solution for tracking product prices and recommendations across e-commerce sites.
- Used Scrapy and Selenium for real-time data collection and trend prediction.
- Backend: Flask (Python); Frontend: HTML, CSS, and JavaScript.

CERTIFICATIONS

Fundamentals of Cybersecurity, NIT Calicut

Python Programming Add on course

Machine Learning and Artificial Intelligence Online Course

One Million Prompts – Prompt Engineering, Dubai Future Foundation

LEADERSHIP & EXTRA-CURRICULAR ACTIVITIES

Event Head, Nakshatra

- Managed event planning, scheduling, and team responsibilities efficiently
- Coordinated sponsors and execution
- Demonstrated leadership, communication, and organizational skills in a large-scale college fest.

SKILLS & INTERESTS

Programming Languages Python, C, SQL

Web Technologies Angular, HTML, CSS, REST APIs, Javascript, React

Tools & Platform Git, VS Code, Linux, Selenium

CS Fundamentals DSA, OOPs Concepts, Database Management System

Languages English, Malayalam
